Coordinated Community Response Webinar – April 10, 2024

Domestic Violence Regional Councils are an opportunity to have robust, system-level conversation about the barriers gender-based violence stakeholders face in providing comprehensive services to victims and survivors.

In advance of the DVRCs, OPDV will be hosting an introductory-level Coordinated Community Response (CCR) Webinar on April 10th from 1:00-3:00pm to share information about what the term coordinated community response means, what the different types are, and the importance of assessing community readiness. This webinar is strongly recommended but not mandatory for DVRC attendance.
